

FDM Raman Organics

Features:

- Chemical names with CAS numbers.
- 780 nm laser, 3250 cm⁻¹ to 200 cm⁻¹
- White Light Intensity Correction.
- Spectral resolution check consistent with ASTM E2529-06.
- Complements the FDM ATR Organics.
- X axis calibration check consistent with ASTM E1840-96 (2007).
- 1450 spectra
